

Colorectal Health NW

COLON AND RECTAL SURGERY

Congratulations Dr Manchio on achieving Top Doctor recognition!

Colorectal Health NW provides outstanding care across the Portland metro area for those needing evaluation of colon and rectal issues. Our board-certified colorectal surgeons pride themselves on exceptional patient care. We can effectively treat many conditions such as hemorrhoids with dietary or lifestyle changes, medications, or simple in office procedures. When major surgery is required, our surgeons perform over 90% of these operations with minimally invasive techniques including robotic and laparoscopic surgery. This affords patients less pain, fewer complications, and shorter recovery times.

L to R: Richard U. Kalu, MD, MPH; Scott M. Browning, MD, FACS, FASCRS; Jeffrey V. Manchio, MD, FACS, FASCRS

Colorectal Health NW also provides direct access scheduling for patients to arrange their screening colonoscopy. If you are 45 or older, take action to prevent colon cancer, call to schedule your screening colonoscopy today.
